Dear Sirs:

This may be directed to the wrong agency.

Is the current Communistic Party "line" as to infiltration and control of liberal groups available for use by liberals genuinely interested in improving conditions for the underprivileged, to compare group acts within the Unitarian Service Committee, Inc., which seem to be directing the organization so as to give assistance to those who would destroy our form of government?

I have recently joined the organization, and it appears a well-directed minority is injecting the CP line into it in a subtle and frightening manner.

Recent examples are the "Black Unitarian Caucus" proposals formulated October 1967 in New York at Emergency Conference on the Unitarian Response to the Black Rebellion, held in a Motel under auspice of Unitarian Universalist Commission on Religion and Race, as reported in Record, Fall 1967, Vol I, No. 1 and the adverse stand taken by organization leaders as to our Viet Nam policy, contrary to membership majority opinion.

Injection of Viet Nam, draft evasion, and draft card burning into the plight of the underprivileged can have only one source: the Communistic Party. Combining genuinely-needed social reforms and social improvement items with impediments to our fight for survival as a nation apparently a pattern to entrap and use the idealism in our group, turning honest and sincere effort into a weapon aimed at our country's destruction.

REC-30 / 1 - 1922

I, not alone in the Unitarian Universalist Organization, do not want to be and do not intend to be a dupe for the CP. ~~How to combat the apparent infiltration~~ ~~is, however, a problem.~~ 5 MAR 12 1968

I plan to attend the annual Cleveland Ohio meeting in May of this year, and hope to be able to offer "points of comparison" of certain acts (if they agree, as I feel they must, with authentic and current instructions from the CP).

This is why I have asked for the current CP line, if you can release information on the subject.
